جامعة العلوم الإسلامية الماليزية  
ISLAMIC SCIENCE UNIVERSITY OF MALAYSIA

## INTERNATIONAL SEMINAR ON SCIENCE & TECHNOLOGY 2014 (ISOSTECH'2014)

*Kampus Tegalboto University of Jember*

*October 23, 2014 – October 23, 2014*

*Jointly Organised by UNEJ, Indonesia & USIM, Malaysia*

### Current Advance on Science & Technology

Science & technology are prominent fields and control our day life, since they became our needs in the modern life. In addition, science and technology issues have been played an important role in solving many problems in our modern life. Therefore, the intensity of the program such as seminar, conference, exhibition and other platforms are needed to be developed. Therefore in order to disseminate such information, University of Jember (UNEJ), Indonesia, in collaboration with Universiti Sains Islam Malaysia (USIM) will take the initiative to organize 'International Seminar On Science & Technology: Current advance on Science & Technology'

The International Seminar On Science & Technology 2014 (ISOSTECH '14) has been arrange with substantive elements such as seminar pertaining to science and technology together with poster and exhibition.

The seminar will provide an excellent platform for knowledge exchange between the academicians, researchers, scientists, engineers and related industries working in areas of basic sciences, agricultural & food Technology, health sciences and engineering as well as information technology. In addition, it provides an opportunity for the participants from Indonesia, Malaysia and international participants to share research findings, to establish networking and to encourage academic and student exchange and other participation in this exciting seminar.

The seminar will present all aspects of science and technology that become current issues nowadays, including but not limited to the following technical areas:

- Mathematics and Basic Science
- Agricultural and Food Technology
- Health Sciences
- Engineering and Information Technology
